Big Motoring World sell [BMW Kent](#) and do it well. I have visited their website and they are having a used BMW cars sale this weekend. I don't need to change my 118d, as it serves me well and is relatively low mileage for its age. However, if I can get a good part exchange valuation from these guys then I would be tempted to take a test drive in a used BMW Z4. I have always wanted a convertible and the ability to put the roof down on a sunny spring day. This car dealer has one advertised in silver which is my favourite metallic paint colour.
