In November and December, [Norwich car dealers](#) are reporting a decline in car sales. This is generally across all sectors although the Super Mini segment seems to be bucking the trend as car buyers look to downgrade from their luxury saloons and four wheel drive cars and steer more towards Toyota Aygo, Yaris, Ford KA, MINI and Focus. These cars are more fuel efficient with a lower tax band so car tax is cheaper and also insurance. Stebbings Car Supermarket in Kings Lynn stock a huge selection of this type of used car starting from £2500 so they are cheap to buy, run and service.
